

Claim your  
FREE Transvideo  
StarliteHD-m  
Monitor now!

**Unleash the power of  
ZEISS eXtended Data.**  
ZEISS CP.3 XD monitor bundle

## **The sixth sense for your ZEISS CP.3 XD monitor bundle now comes FREE with your order!**

Get aggregated lens data from your ZEISS lenses and integrate them with your camera information on this high-tech monitor.

### **How to participate:**

This bundle promotion is straightforward: buy a set of any 5 CP.3 XD lenses at your official ZEISS dealer between November 1 and December 31, 2018. Send ZEISS a copy of the sales receipt and the serial numbers of the lenses to [photo@zeiss.com](mailto:photo@zeiss.com). We will then forward a unique voucher number for a FREE Transvideo StarliteHD-m Monitor to be redeemed directly by Transvideo.

**For full conditions of participation and data protection visit: [zeiss.com/cine/starlitebundle](http://zeiss.com/cine/starlitebundle)**

### **About the StarliteHD-m:**

A mighty, yet compact metadata aggregator monitor that records information from both your camera and your CP.3 XD lenses:

- Record distortion and shading lens data for direct use in VFX
- Live visualization of vital lens data on set
